# 2022 PRIORITIES WITH SECRETARY CROWFOOT

TUESDAY, JANUARY 18, 2022 | 12:30 PM TO 1:30 PM

Despite a year of unexpected challenges, leaders at our Natural Resources Agency continued to advance our mission to steward California's natural, cultural, and historic resources. Agency teams protected communities from wildfires, drought and other emergencies, restored nature for fish and wildlife, and welcomed millions of Californians into the outdoors as we weathered the global pandemic.

Governor Newsom's proposed budget positions our agency to continue to build climate resilience, expand equitable access to the outdoors, and protect California's nature and world-renowned biodiversity. Join Secretary Crowfoot and agency leaders as we discuss our 2022 priorities and what lies ahead. Please bring your questions and suggestions!
